What We Do

TEAM Systems offers solutions for many different vertical markets. As your complete cleaning source, we have the product and service that will help you achieve your goals

DRY CLEANING PRODUCTS

BOILER TREATMENT

TS BOILER TREATMENT is used in place of conventional boiler water sludge conditioners to prevent suspended soils of any kind from adhering to interior boiler surfaces and gradually to remove any existing scale or sludge deposits. Additionally, **TS BOILER TREATMENT** contains a special oxygen scavenging ingredient to reduce corrosion potential in the boiler.

DRY CLEANING DETERGENTS

GALAXY represents a new class of dry cleaning detergents for economy and versatility of use across a variety of solvent systems and detergent feed methodologies. **GALAXY** incorporates anionic and nonionic ingredients as well as a citrus based degreaser to ensure superior grease and oil dispersion. A state of the art anti-static compound has been added to mitigate electrical charge resultant lint and handling issues.

CT DET is a cationic dry cleaning detergent incorporating state of the art anti-static components. This product was designed for use in injection system dry cleaning applications where controlled and balanced moisture content is required. **CT DET** provides highly effective cleaning results over a broad spectrum of stain types and produces exceptional cleaning with minimal pre-spotting.

COMPLETE is a hybrid dry cleaning detergent/sizing containing coconut oil based dry cleaning detergent combined with a highly stable thermoplastic hydrocarbon resin developed for textiles. In addition, **COMPLETE** contains an effective brightener which enhances optical effect but no water. **COMPLETE** can be used successfully both in charged or batch-type cleaning systems. This formulation provides the finest "Hand" and finish possible.

ECONO DET is a cost effective dry cleaning detergent with anti-static components and optical brighteners. **ECONO DET** can be used in both two-bath and stand alone dry cleaning systems. **ECONO DET** is a clear product that will not add coloration to the solvent. **ECONO DET** provides excellent results across a wide range of soil, fiber and solvent applications.

WET WASHING

WET CLEAN DETERGENT represents a breakthrough in Wet-Cleaning innovation chemistry. **WET CLEAN DETERGENT** performs on the "acid" side, thereby preventing dye loss on garments labeled "Dry Clean Only". Low pH washing also reduces rising and reduces utilities and formula wash times. **WET CLEAN DETERGENT** does an outstanding job of removing smoke and soot from garments when used in a pre-wash operation. When you need a state of the art, pH controlled product that is designed for wet cleaning wools, silks and fine fabrics, you need **WET CLEAN DETERGENT**.

WET CLEAN CONDITIONER is a finishing agent for laundry and wet-cleaning applications where fabrics require a more relaxed and softer hand. **WET CLEAN CONDITIONER** also improves stain resistance, reduces static and pressing time.

SMOKE RESTORATION

NO SMOKE is a highly active general purpose smoke odor counteractant specially formulated to manage fire, smoke, and other strong odors. **NO SMOKE** is blended with the finest-quality ingredients and helps to detoxify odors quickly and efficiently.

ODOR-X is a highly active, general purpose odor counteractant, not an odor masker. It has been specially formulated to remove smoke and other strong odors from garments. It has a pleasant floral fragrance.

SPECIALTIES/SPOTTERS

TEAM COLLAR & CUFF is an effective, highly versatile all purpose stain remover. **TEAM COLLAR & CUFF** can be used both as a pre-spotting agent for wet cleaning and as an additive for cold washing to help remove oils.

POG is the all purpose paint, oil, and grease remover used for dry cleaning. It removes paint, varnish, grease, shoe polish, tar, and salad oils. **POG** is effective on many other hard to remove stains.

SPOTTER AND STAIN REMOVER is a biodegradable blend of nonionic surfactants that contain no solvents or phosphate. **SPOTTER AND STAIN REMOVER** has excellent emulsifiers that are designed to remove most organic stains. It can be used in spot treatments and stain loads.

SPOTTER AND STAIN REMOVER is effective against grease, oil, coffee, catsup, flood, blood and grime.

SPOT ALL is an effective, highly versatile, all purpose stain remover. The product can be used both as a pre-spotting agent for wet-cleaning and as an additive for washing to assist in removing oil, grease, and ground in soil.

SIZING/STARCHES

T-SIZE is a highly stable thermoplastic hydrocarbon resin developed for dry cleaning processes. It contains a highly effective brightener which enhances optical effect. **T-SIZE** will not “powder off” or cause dusting in the finishing process. **T-SIZE** can be used in perchlorethylene and petroleum-based solvents, as a bath injection additive or as a charge without risk of binding filters or clogging stills.
